

# Times Change... So Should Your Procedures

Vanguard SmartProcedures™ revolutionizes the procedure life cycle from creation to field use. SmartProcedures™ are easier to create and manage than conventional paper-based systems like Word, and they provide flexible display options.

Vanguard has built-in human error reduction features producing better and safer procedures. This innovative technology lets your writers concentrate on content, not mind-numbing formatting or complex document management.

Streamline your procedure workflow and reduce costs. Give your operating personnel the best procedures available in whatever format they need to safely get the job done safely. TabletPC, PDA, paper, desktop – “what they need when they need it.”

Let us show you how to turn your conventional procedures into SmartProcedures™ and energize your procedure program.

**No Formatting Required**

**Automated Templates**

**Universal Procedure Glossary**

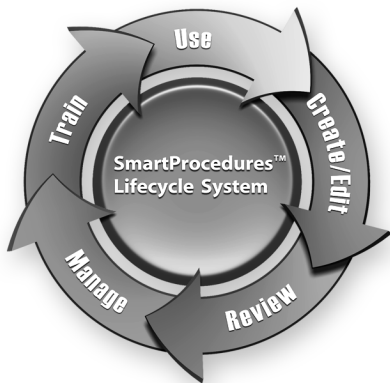

**Automated Checklists**

**Integrated Change Management**

**SingleStep™ Procedure Training**

**Automated Style Rules**

**Interactive Capability**

***Revolutionizing procedures step-by-step***
